8/3/04	A99-05-029	Southern California Gas Company, for authority pursuant to Public Utilities Code Section 851 to sell certain real property in Playa Del Rey.
--------	------------	--

Summary: On July 29, 2004, Brian Catalde, President of Paragon Communities (Paragon), met with Belinda Gatti, advisor to Cmmr. Brown, and Cmmr. Wood in two separate meetings in San Francisco. At the meeting with Belinda Gatti also present was Peter Hanson, advisor to Cmmr. Brown, and with Cmmr. Wood – Steven Weissman, advisor to Cmmr. Wood. Edward W. O’Neill, counsel to Paragon, participated in both meetings. Paragon representatives discussed the motion of Paragon for interim decision granting limited exemption from Public Utilities Code Section 851 (Motion). O’Neill stated that the Commission has more information and analysis than required to approve the application. If the Commission is not able to promptly complete a final decision approving the application on the merits, O’Neill urged the Commission to promptly grant Paragon’s Motion. O’Neill explained that this would permit the sale of eight lots that involve no legitimate issues in dispute and noted that the development of these lots would constitute in fill development that is categorically exempt from CEQA. Catalde added that he is very familiar with all rules and regulations promulgated to ensure that public health and safety is protected in such developments and urged the Commission to approve the application without further delay.

Summary: On July 29, 2004, Richard B. Severy, Director of State Regulatory-West, MCI, Inc. (MCI), met with Cmmr. Wood in San Francisco. Also present were Jonathan Lakritz, advisor to Cmmr. Wood, and William C. Harrelson, Senior Counsel, MCI. Written materials (attached to the notice) were used. MCI representatives explained why the increase to loop prices recommended in the proposed and alternate decisions is wholly unsupported by the record. MCI pointed out that a correction of the errors in the Commission staff's run of Joint Applicant's (JA) proposed HMT.3 underlying the proposed decision would result in significantly lower loop prices, as would adoption of JA's appropriate recommended adjustments to SBC's LoopCat cost study. Harrelson also addressed why the increase to the percentage of universal digital loop carrier presumed in the alternate was unreasonable and discussed the impact of the 9th Circuit's remand regarding the calculation of the common cost markup.
